

Mark Learned, MD

Vice President, Primary Care
Colorado Permanente Medical Group

NOTE- The information in this presentation is accurate as of March 26, 2020

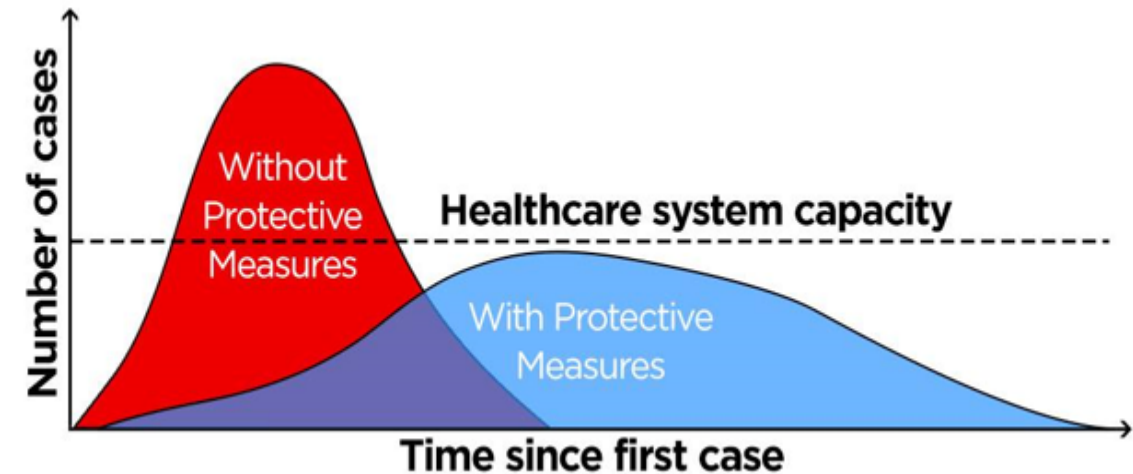

What is “flattening the curve”?

Stay at home Colorado order:

March 26- April 11

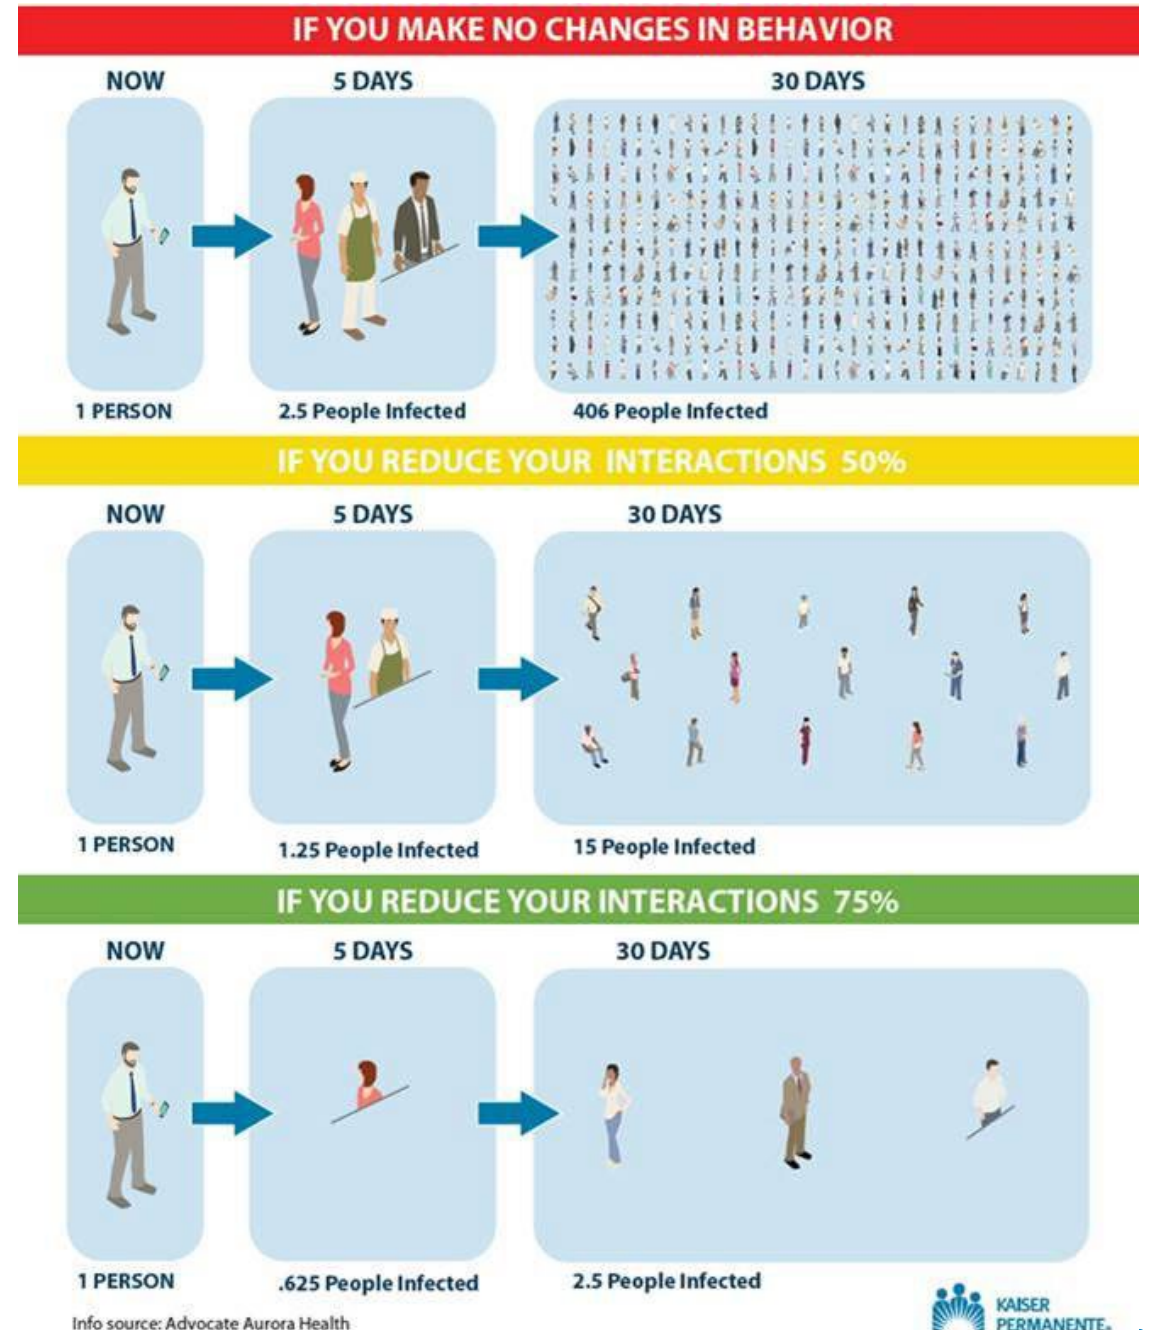

- Stay at home except for essential activities or essential business
- Outdoor activities are considered essential – walking, running – while maintaining 6 feet distance
- Avoid unnecessary travel
- Avoid mingling with others outside their households
- Can care for others in a different household
- Issued during public health emergencies

“Flatten the curve.”

The Power of Social Distancing:

How do social distancing & stay at home help flatten the curve?

How to protect yourself

Know how
it spreads

Clean your
hands often

Avoid close
contact

Stay home
if you're sick

Cover coughs
and sneezes

Wear facemask
if sick

Clean and
disinfect
