

Downtown Denver Partnership

# Urban Exploration

## Urban Exploration 2019: Itinerary Overview

The 2019 Urban Exploration program will look at Copenhagen through the three learning lenses of Livability, Equity and Economic Innovation. Participants will study Copenhagen's inspirational story of how it got to where it is today; how it went from an auto-oriented city to a city that prioritizes a people-first design and acknowledges that growth and quality of life go hand in hand.
